

03. Setup Drupal 8 Frontend

D. Define custom CSS library in your theme.

Example : `themes/entity_print_test/entity_print_test.libraries.yml`

```
structured-pdf:  
  version: VERSION  
  css:  
    theme:  
      css/structured__pdf--theme.min.css: {}  
    layout:  
      css/structured__pdf--layout.min.css: {}
```

03. Setup Drupal 8 Frontend

During this stage :

- A. Create a custom node twig template.
- B. Add custom CSS library to entity print.
- C. Override default library used by Entity Print.
- D. Define custom CSS library in your theme.
