

## 03. Setup Drupal 8 Frontend

### B. Add custom CSS library to entity print.

Example : `themes/your_theme/templates/content/entity-print--node—structured_pdf.html.twig`

```
<html>
  <head>
    <meta charset="utf-8">
    <title>{{ title }}</title>
    {{ entity_print_css }}
  </head>
  <body>
    {{ content }}
  </body>
</html>
```

## 03. Setup Drupal 8 Frontend

### C. Override default library used by Entity Print

Example : `themes/entity_print_test/entity_print_test.info.yml`

```
entity_print:  
  node:  
    # Adds article-pdf css library to the Article bundle on :  
    structured_pdf: 'entity_print_test_theme/structured-pdf'  
    # Adds the all-nodes library to all node PDF's.  
    all: 'entity_print_test_theme/all-nodes'
```
