

Inclusive Design

A design methodology that enables and draws on the full range of human diversity.

Disability

1980

Disability as personal attribute

"In the context of health experience, a disability is any restriction or lack of ability (resulting from an impairment) to perform an activity in the manner or within the range considered normal for a human being."

–World Health Organization

Now

Disability as context dependent

"Disability is not just a health problem. It is a complex phenomenon, reflecting the interaction between features of a person's body and features of the society in which he or she lives."

–World Health Organization
