

02. Setup Drupal 8 Backend

During this stage :

1. Setup fields.
2. Install Entity Print Contrib module.
3. Configure Entity Print.
4. Display View PDF link on Node.
5. Setup Workflow for the PDF content type. (Optional)

03. Setup Drupal 8 Frontend

A. Create a custom node twig template for your content type

Example : `themes/your_theme/templates/content/node—structured_pdf.html.twig`
