

02. Setup Drupal 8 Backend

Configure entity print

The screenshot shows the Drupal 8 administration interface for the Entity Print module. The breadcrumb trail is: Home » Administration » Configuration » Content authoring. The page title is "Entity Print" with a star icon and the URL </admin/config/content/entityprint>. The "ENTITY PRINT CONFIG" section contains the following settings:

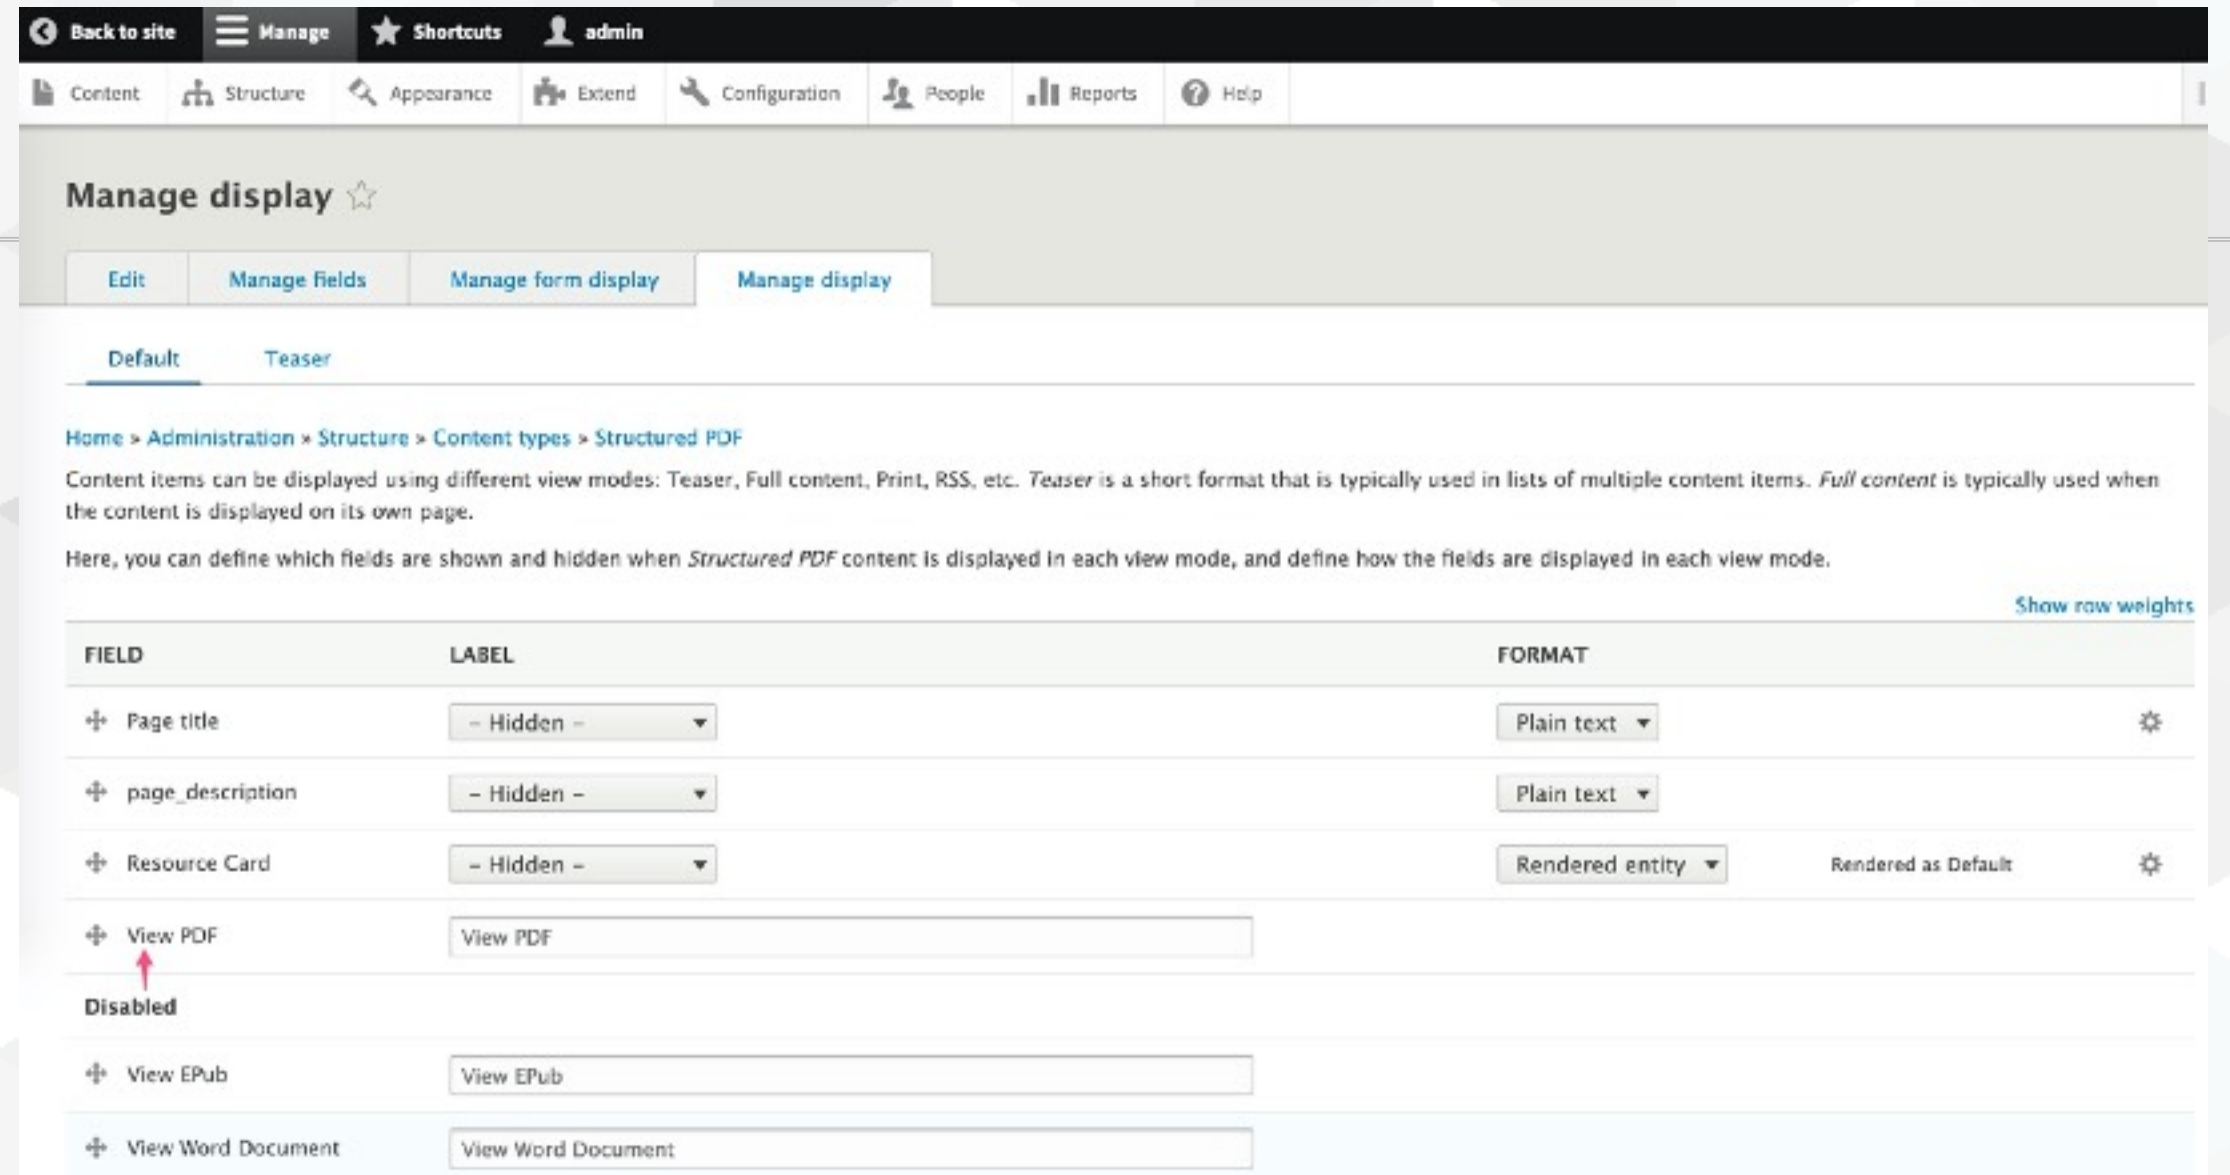

- ☒ **Enable Default CSS**
Provides some very basic font and padding styles.
- ☐ **Force Download**
This option will attempt to force the browser to download the Print with a filename from the node title.
- PDF**
A dropdown menu is set to "Dompdf". Below it, the text says "Select the default PDF engine for printing." A blue box highlights this section. To the right, a link is provided: <https://www.drupal.org/docs/8/modules/entity-print/pdf-engine-support>.

The "DOMPDF SETTINGS" section contains the following settings:

- Paper Size**
A dropdown menu is set to "Letter". Below it, the text says "The page size to print the PDF to."
- Paper Orientation**
A dropdown menu is set to "Portrait". Below it, the text says "The paper orientation one of Landscape or Portrait"
- ☒ **Enable HTML5 Parser**
Note, this library doesn't work without this option enabled.
- ☐ **Disable Log**
Check to disable DomPdf logging to log.html in Drupal's temporary directory.
- ☒ **Enable Remote URLs**
This settings must be enabled for CSS and Images to work unless you manipulate the source manually.

02. Setup Drupal 8 Backend

Configure Display for content type

The screenshot shows the 'Manage display' interface for the 'Structured PDF' content type in Drupal 8. The interface includes a breadcrumb trail: Home > Administration > Structure > Content types > Structured PDF. Below the breadcrumb, there is a description of content items and their view modes (Teaser, Full content, Print, RSS, etc.). The main section is a table with columns for FIELD, LABEL, and FORMAT. The table lists several fields: Page title, page_description, Resource Card, View PDF, View Epub, and View Word Document. The 'View PDF' field is highlighted with a red arrow and is currently disabled. The 'Resource Card' field is set to 'Rendered entity' and is marked as 'Rendered as Default'.

FIELD	LABEL	FORMAT
Page title	- Hidden -	Plain text
page_description	- Hidden -	Plain text
Resource Card	- Hidden -	Rendered entity
View PDF	View PDF	
View Epub	View Epub	
View Word Document	View Word Document
